Solar® Fuel Nozzle Servicing

With experience of overhauling fuel nozzles from an extensive array of markets and products our strengths are:

+ Complete in-house fuel nozzle servicing
+ Unique repairs utilising advanced technologies
+ Tight tolerance calibration to optimise temperature spreads
+ Flexible TAT to meet customers' requirements
+ Our FAA and EASA aerospace approved repair station status provides the highest standard of Quality

Through our repair focused service, rather than replacement, EthosEnergy Accessories & Components is able to return your parts back to service through use of specialised repairs thus extending the life of your parts.

EthosEnergy Accessories and Components provides comprehensive test, repair and overhaul services for gas turbine fuel nozzles used in industrial, marine, military, power generation, oil & gas and aero applications.

Our Solar® fuel nozzle capability covers the following gas turbines and includes standard combustion and SoLoNOx™ combustion systems:

+ Saturn®
+ Centaur®
+ Taurus®
+ Mars®
+ Mercury®
+ Titan®
