

Solar Field Services

Overview

Full range of Equipment Covered

- Saturn 10
- Centaur 40
- Centaur 50
- Taurus 60
- Mars 90
- Mars 100
- DLE (Dry Low Emission) Combustion
- Gas Compressors: C16, C28, C30

Inventory of Tooling & Specialist Equipment

We are fully equipped to provide full Mechanical Support for the Saturn, Centaur, Taurus, and Mars Engine types with associated Power Turbines Specialist equipment for Gas Generator and PT removals/installations

- Coupling Alignment
- Electrical & Multi-function Calibration kits
- Borescope kits equipped with stereo measurement capability
- Full Driven Equipment Alignment
- Balancer
- Vibration Analysis
- Controls System Retro-fit
- DLE Tuning

Ease of Shipment

Field Service inventory of toolkits and specialist equipment is structured in such a manner as to ensure the capability for rapid and safe global shipment of all required equipment without delay. We have the capability to simultaneously support a number of same scope outages around the world. Tooling is periodically tested to ensure equipment is fully maintained

Training & Development

Industry wide certifications used:

- BOSIET certificate
- High Level of Field Service QHSE Training
- Offshore medical certificate
- PEC Core Compliance Safety Training

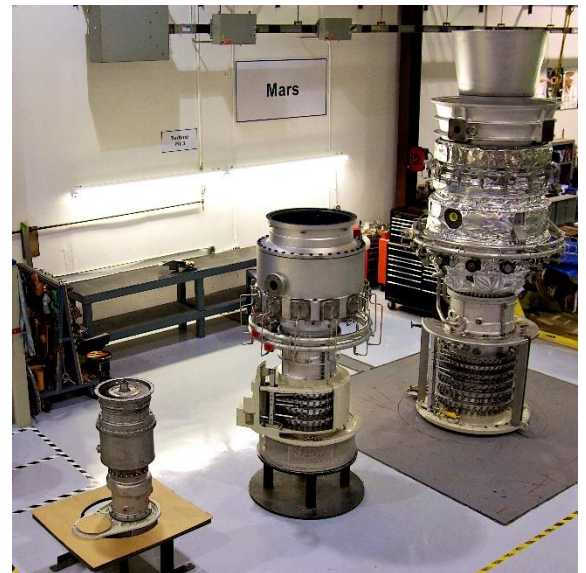

Expertise

Our team has over 500 years of combined turbine experience, ensuring our Field Service Engineers can provide for all site maintenance services, including installation and commissioning. Our engineers bring not only a high technical aptitude to the field, but also the professional response our customers deserve. A high level of QHSE training is mapped into our FSE team and it is fully compliant in relation to Health, Safety and the Environment, our leading Ethos value.

We work closely with our customers to ensure on time mobilization and delivery of our highly skilled workforce without the support of a specialist vendor.

Mobilization

The Field Service Operations team is available 24 hours a day, 7 days a week, to ensure the required support network is in place for our customers.

EthosEnergy is a leading independent service provider of rotating equipment services and solutions to the power, oil & gas and industrial markets. Globally, these services include facility operations & maintenance; design, manufacture and application of engineered components, upgrades and re-rates; repair, overhaul and optimization of gas and steam turbines, generators, pumps, compressors and transformers; delivery of gas turbines and generators, and supply of overhauled and warranted equipment on a FAST TRACK basis.
