

Gas Turbine Fuel Burner Services

Product Sheet

Our expertise and experience in repair development and service innovation enables us to provide unique OEM approved and independent repairs designed to return burners and fuel nozzles back to service.

EthosEnergy Accessories and Components provides OEM approved and independent test, repair and overhaul services for fuel nozzles and burners used in industrial, aerospace, marine, military, power generation and oil & gas applications.

With experience of overhauling gas, liquid and dual fuel systems from an extensive array of markets and products, our strengths are;

- Complete in-house servicing
- Unique repairs utilizing advanced technologies
- Tight tolerance flow calibration to optimize temperature spreads
- Flexible TAT to meet customers' requirements
- Our FAA and EASA aerospace approved repair station status provides the highest standard of quality transferred to our industrial activities

Through our repair focused mindset, rather than replacement, EthosEnergy Accessories & Components is able to return your parts back to service through use of specialized repairs thus extending the life of your parts.

EthosEnergy is a leading independent service provider of rotating equipment services and solutions to the power, oil & gas and industrial markets. Globally, these services include facility operations & maintenance; design, manufacture and application of engineered components, upgrades and re-rates; repair, overhaul and optimization of gas and steam turbines, generators, pumps, compressors and transformers; delivery of gas turbines and generators, and supply of overhauled and warranted equipment on a FAST TRACK basis.
